

A division of  **NEDBANK**

About us

MFC is a division of Nedbank Limited.

In October 2010 Nedbank Vehicle Finance was renamed MFC, a division of Nedbank (MFC), following a merger between the Motor Finance Corporation and Nedbank Vehicle and Asset Finance. This came after Nedbank acquired Imperial Bank and fully integrated MFC. The merger helps realise Nedbank's vision to be Africa's most admired bank by our clients, stakeholders, regulators and communities. Nedbank Group is one of South Africa's 4 largest banks, with Nedbank Limited as its principal banking subsidiary.

MFC prides itself on offering accessible vehicle finance solutions. Beyond vehicle finance, in August 2022 MFC became the finance engine for Nedbank Solar Finance, offering finance for PV solar solutions, an alternative and sustainable energy supply for South African homes. Our approach is to offer you the added benefit of fast, efficient and simple service. As a client, you can choose one of the many finance options available to you.

At MFC, we believe in empowering not only our employees, but also our clients. Therefore, all the information you might need to make the right choice is right here.

Part of our approach is to offer cost-effective services using cutting-edge technology, product innovation and the efforts of highly skilled and motivated employees.

The benefits of taking asset-based finance with MFC are the following:

- You enjoy world-class service from the second-biggest vehicle financier in the retail market.
- You have peace of mind knowing that your finance is backed by one of South Africa's top banks.
- You can benefit from our partnerships with Motus, Hyundai, Kia, Renault and Mitsubishi.
- You can deal with any one of the more than 3 000 approved dealerships on our books.

Our purpose, vision and values are directly aligned with Nedbank: to use our financial expertise to do good for individuals, families, businesses and society.
